Shipping Rates:

We add shipping according to the weight and delivery location. We calculate this at the payment stage 3 of your checkout process.

POA or Price on application:

Due either to the nature of the equipment you have purchased and/or the location to which you want it delivered, a member of the Leafield staff would contact you to discuss delivery options with you.

You will automatically be referred to a member of our staff as you checkout in the payment process - you will be informed that this has taken place.
